

# Alu Briefcase 14-15.6

**Durable aluminium notebook bag with tablet compartment**

**Alu Briefcase has a classical design and is comfortable in handling. The two exterior hulls are made of full aluminum and are each manufactured from one piece which makes the case especially robust despite its light weight. Your mobile equipment is perfectly protected from shocks and jolts. The matte-colored and lockable latches are very stable and lock securely. A padded tablet compartment perfectly fit for tablet up to 10".**

The effective cushioning made of High-Density Foam (HDF) protects the notebook safely inside the case and the notebook strap keeps it in place. In addition to the notebook Alu Briefcase also has room for power supply unit, replacement battery or other items in the cable bag that comes with the bag. Additional mobile accessories can be stored in the workstation and documents can be placed in the document compartment in the case lid. The removable shoulder strap also provides for comfortable transport.
